

The Diabetic Shoppe

The Diabetic Shoppe at Ward Drug Company stands in a class by itself for providing excellence and variety in the services it offers to Diabetes patients.

Jenny Mayo is a certified consultant who is committed to helping you understand Diabetes, and she will help you take control of your Diabetes and assist you in deciding which products and services are right for you. She will explain how to use all the products that we offer including proper fitting of Diabetic shoes. She can check your blood sugar and help you achieve your treatment goals.

So come see the problem solvers in the "Diabetic Shoppe" conveniently located inside Ward Drug Company of Nashville, and let us help you put together the pieces of your health puzzle

Meters:

The Accu-Chek Compact Plus meter is the breakthrough glucose meter system with an integrated lancing device. With no strips to handle, testing is made easier and more convenient for all patients. This meter offers the plus of an attached SoftClix Plus lancing device, an internal 17-test-drum, and no necessary coding. It also includes an acoustic test reminder and hypoglycemia threshold warning.

Test Strip Drum: Accu-Chek Compact

Customer benefits

- **Integrated test strips in a drum**
The integrated 17-test-drum eliminates the need for strip handling (press-dose-press) and offers easy automatic strip processing and automatic coding for increased testing convenience and safety.
- **One-hand-testing**
Due to the unique option of the docked-on Accu-Chek Softclix Plus lancet, there is no need to carry a separate lancing device.
- **Faster total testing time**
Accurate results after only 5 seconds of measurement time.
- **Integrated Safety**
Integrated quality checks, test strip expiry warning, integrated under dosing detection and the additional features of hypoglycemia warning and acoustic test reminder mean convenient and worry-free testing.

Additional features

- **Accu-Chek Softclix Lancets**
Accu-Chek Softclix lancets make blood sample collection more comfortable through precise linear action, making it easier to test as often as necessary.
- **Diabetes data management**
Use the Accu-Chek CAMIT Pro software (for professionals) to download test results to your computer or use the Accu-Chek Pocket Compass Software for communication with a PDA.

A small and easy-to-use glucose meter designed for patients.

Accu-Chek Aviva combines an ergonomic design, small blood samples, fast and accurate results for dependable, worry-free testing. It also includes customizable test reminders and an easy-to-use test strip

Test strip: Accu-Chek Aviva test strip

Customer benefits

- **Easy to use, fast and reliable**
With just two simple steps, a reliable result is obtained within five seconds
- **Small blood sample**
Only 0.6 microliter of blood is needed.
- **Simple calibration**
The snap-in code chip makes calibration extremely easy.
- **Review of past results right on the meter**
500-value memory automatically stores results along with times and dates. Look up your 7, 14, 30 day averages.
- **Audible test reminders**
Four individually programmable alarm times to remind you to test.

Additional features

- **Lancet devices**
Accu-Chek Softclix lancets make blood sample collection more comfortable through precise linear action, making it easier to test as often as necessary. Accu-Chek Multiclix lancets additionally offer a lancet drum with six spare lancets to eliminate the need for lancet handling.
- **Diabetes data management**
Use the Accu-Chek CAMIT Pro software (for professionals) to download test results to your computer or use the Accu-Chek Pocket Compass Software for communication with a PDA.

ACCU-CHEK Active Meter

Everyday value testing. Enjoy a full-featured system at the right price.

ACCU-CHEK Active Blood Glucose Meter

Flexible dosing in or out of the meter

Insert a test strip and get results in two simple steps

Test from your fingertip, palm, forearm, upper arm, thigh, or calf¹

Results in approximately 5 seconds

Small and lightweight—about the size of a cell phone

Save up to 200 values in meter with time and date; create 7- and 14-day averages

Download test results to your PC with ACCU-CHEK Compass Software or upload test results to the Diabetes Assistant[®] Program at accu-chek.com

ACCU-CHEK Softclix Lancet Device

the least-painful lancet device—won't tear your skin by wiggling from side to side²

Comfort Dial offers 11 depth settings, so you can adjust the lancet depth to match your skin type

ACCU-CHEK Active Diabetes Test Strips

Touchable test strips with capillary action require a very small, 1 microliter blood sample

Apply blood to the test strip in or out of the meter

**All of the meters listed above are Medicaid / Medicare covered.*
