

This Rocket Won't Take You to the Moon! But...It Will Shrink Your Hemorrhoids

Let me introduce to you this **Impressive Performer**
THE RECTAL ROCKET!

This **uniquely shaped rectal suppository** is ideal for painful, itching or bleeding hemorrhoids. The unusual design maintains an extended **duration of contact (6hrs worth!)** with the inflamed tissues allowing them to **shrink both internal and external hemorrhoids simultaneously** while providing soothing relief thereby shortening the duration of discomfort and the healing time as well. Inserted at bedtime, it dissolves overnight, allowing the passage of medication directly through the tissue for effective relief. **Feeling good has never been easier!**

Safe for Pregnant and Nursing Women.

Hydrocortisone 1% Licocaine 2%

Insert 1 suppository at bedtime for 2 consecutive nights.
